Dear Mr. Slimmon,

**Overseas Manufacturer Agreement for Marking of Products in Accordance with the ACMA/RSM Labelling Notices**

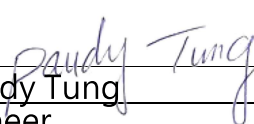

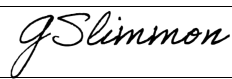

This Agreement indicates that **Fanstel Corporation, Taipei** (Manufacturer) appoints Blulen Pty Ltd (Blulen) to be our Agent for the purpose of maintaining Compliance Folders in accordance with the Australian Communications & Media Authority's (ACMA) and the New Zealand Radio Spectrum Management (RSM) Labelling Notices. This Agreement is applicable to the Products that are marked with the RCM and/or R-NZ logo for which Blulen through its associated companies N136 Pty. Ltd. and Z571 Limited hold the compliance folders.

Under this agreement, Blulen accepts responsibility for the ACMA and RSM compliance of these Products in Australia, when they are used within the manufacturer's specifications. Blulen shall maintain the product compliance folders as per the Manufacturer's instructions, and shall enter into an ACMA/RSM agency agreement with each of the Manufacturers importers free of charge when requested to do so. If a product is modified by the Manufacturer, then Blulen shall, upon notification, will promptly update the compliance folder with the new evidence of compliance as required under the Labelling Notices and revise the DoC as applicable, prior to any of the modified Products being supplied to Manufactures importers. Blulen shall be responsible for handling all regulatory enquiries from the ACMA/RSM in respect of the Products to which this agreement applies.

This agreement will continue for the period of five (5) years from the date shown above. It may be terminated by either party by providing 30 days written notice to the other party. In any event, N136 must continue to hold the compliance folders for five (5) years in accordance with ACMA requirements. N136 will remain responsible for regulatory enquiries and associated compliance issues throughout the record retention period for Manufacturer's Products during the period this agreement was in effect.

The Manufacturer agrees to:

- Correctly label product for which an ACMA/RSM DoC has been issued and supply a copy of said labels (for ACMA the correct compliance mark is the RCM logo, for NZ RSM the correct compliance mark is shown of the NZ RSM SDoC)
- Inform Blulen of any changes to the product before it is supplied to the Australian/New Zealand market
- Pay all costs in the advent of the Regulator finding a non-compliance with their product
- Provide any additional information within seven (7) days of being requested to do so
